- **Core Competencies:** Full-Stack Development, Technical SEO, API Integration, E-commerce Operations, Agile Problem Solving

PROJECTS

Glasgow Turbo House – Full-Stack E-Commerce & ERP System	<i>Jan 2026 – Present</i>
---	---------------------------

[Live Link: glassgowturbohouse.com](https://glasgowturbohouse.com)

- Developed and deployed a full-scale digital platform, transitioning a nationwide automotive parts distributor from manual workflows to a cloud-based ecosystem.
- Built a high-performance, bilingual (English/Urdu) storefront using Next.js 14 and TypeScript, featuring smart search functionality for over 1,000 parts and mobile PWA support.
- Created a real-time inventory management backend with Firebase to prevent stock overselling across multiple active sales channels.
- Automated internal operations by integrating billing, barcode generation, and supplier tracking tools, which reduced manual order processing time by 80%.
- *Keywords: Next.js 14, TypeScript, Firebase, PWA*

Hello Pet Pakistan – Premium E-Commerce Platform	<i>Dec 2025 – Jan 2026</i>
---	----------------------------

[Live Link: hellopetpk.pages.dev](https://hellopetpk.pages.dev)

- Designed and launched a fast, conversion-optimized digital storefront for a premium pet care brand, prioritizing mobile responsiveness and technical SEO.

- Programmed a custom 360-degree interactive product viewer and dynamic "Before & After" sliders to drive user engagement and increase sales.
- Integrated a real-time AI voice assistant to instantly handle customer support inquiries and streamline the checkout process.
- Hosted the application on edge networks to ensure fast load times, high availability, and secure data handling.
- *Keywords: E-commerce, Mobile Responsiveness, Technical SEO, AI, Edge Computing, Cloud Deployment*

Kameti App – Digital Savings & Finance Tracker

Mar 2026 – Present

[Live Link: kameti-app.vercel.app](https://kameti-app.vercel.app)

- Architected and developed a web-based application to digitize traditional savings committee ("Kameti") workflows, providing a secure, transparent platform for users to track financial contributions and payouts.
- Designed a highly responsive, mobile-first user interface tailored for seamless accessibility and clear data visualization for all group members.
- Deployed the application on Vercel to ensure maximum uptime, fast global performance, and continuous integration capabilities.
- *Keywords: Web Development, FinTech, Responsive Design, Vercel, State Management*

PROFESSIONAL CERTIFICATIONS

[Responsive Web Design Certification – freeCodeCamp](#) *Feb 2026* • Completed 300+ hours covering HTML5, CSS3, Flexbox, Grid, and WAI-ARIA accessibility (Final Score: 98%).

- *Keywords: HTML5, CSS3, Flexbox, Grid, WAI-ARIA*

[HTML Certification – Great Learning](#)

Apr 2024

- *Keywords: HTML*

LANGUAGES

-
- English (Professional Proficiency)
 - Urdu (Native/Bilingual Proficiency)
